

Application scheme for Danish government support to Rail Freight Undertakings for fitting ECTS equipment in freight locomotives

Before you complete the application form, there are some things that you need to be aware of. Therefore, we have made a brief description of the application process and a checklist for documentation.

The application process

1. The application form (page 3 and the rest of the document) should be completed. You have the opportunity to send additional documents to the application. Fields marked with * are mandatory.
2. Attach additional documents according to the required documentation. The documents must be in Word, Excel or PDF format.
3. Submit the entire material to SP_Secretariat@bane.dk. Note that the total size of an e-mail including attachments must be max 10 MB. If necessary, the application material has to be submitted in several e-mails.

Once the application has been submitted, no changes can be made to it and you cannot submit any attachments – everything must be ready before the application is submitted.

Once the application is received, you will receive a confirmation per. e-mail that the application has been received.

Application period is 01-09-2020 until 31-08-2025, which is the ultimate deadline for acceptance of applications.

After receiving an application, Banedanmark will review the application and notify the results within five weeks.

Master data

Company name*

CVR no.*

Contact person*

Address*

Post code.*

City*

Telephone*

Bank information

Account holder*

Reg. No.*

Account No.*

Bank*

Information on rolling stock

Identification of vehicle(s) and type(s) including supplier information, litra number / serial number, and ownership of vehicles that are required to be equipped with ETCS Baseline 3. If planning of requiring / phasing in of new freight locomotives are planned in connection with ETCS installation, descriptions of both in and out-phased vehicles are required. *

[Type reference]

[Litra reference]

[Litra/serial number]

[EVN number]

[Supplier]

[Ownership]

Description of the existing train control system on board the vehicles *

[Type reference]

[Supplier]

Identification of which line (s) vehicles are used today or where and when they are planned to be deployed *

[Banedanmark TIB line reference]

With application, please provide a copy of the applicable APIS from the Danish Transport Agency for all vehicles for which support is requested *

Project description of ECTS fitment

Banedanmark expects that the applicants in this section of the application form gives a thorough and full description of the project, that the railway freight company is establishing to facilitate the installation of ETCS.

Funding is applied for, for the following type of equipment for fitting locomotives (tick of box) *

ETCS Baseline 3

STM-DK

Background*

[Please, describe the background for the project]

Activities*

[Please, list the project's main activities associated as well as who is thought to perform the assignments]

Supplier*

[the name of the supplier is stated, along with a description of the process which has led to the binding offer or contract, as well as which agreements has been made regarding the future collaboration.]

Economy*

[Background for price estimate (presented in appendix A) is described, as well as clear references to appendix E and/or F, to clarify the specific references between the offer and project budget.]

Is the 1st rate payment requested to be prepaid cf. description in guideline against supplying a bank guarantee / floating charge (tick of box)? *

Yes

No

Timeschedule*

[The final or preliminary schedule, as agreed with the suppliers, is described including date for start of start of fitment for FoC as well as fitment series]

Other public economical support schemes*

- [Is or will there be any other public economical support for the equipment with the ETCS in connection with the vehicles specified in this application, including who is applied for financial support, what are the subjects to the potential financial support (which locomotives of those indicated in the application), how much financial support there is applied for, and status for the decision process and expected date for announcement of decision?]
